Education & Certifications

B.S. in Information Technology (Cybersecurity Emphasis) — Western Governors University, 2024

CompTIA PenTest+, CySA+, Security+, Network+, A+, Project+, ITIL 4 Foundations, ISC2 SSCP (Secure Systems Certified Practitioner)

Professional Experience

Automation Developer — basicinvite.com (Feb 2021 – Present)

- Built Python automation tools reducing manual processes from ~20% error rate to nearly 0%.
- Automated order processing, reducing task time from 4 minutes to 10 seconds, saving 40+ hours weekly.
- Developed rule-based order optimization reducing material waste by 75%.
- Created automated workflows saving an additional 10 hours weekly.
- Deployed and maintained internal tooling with reliability and error handling.

IT & Operations Lead — basicinvite.com (Sep 2016 – Present)

- Led operational workflows across fulfillment, customer service, and IT-related tasks.
- Managed macOS devices via Mosyle MDM including deployment and configuration.
- Implemented ClickUp, Intercom, and internal knowledge bases to improve workflows.
- Designed warehouse fulfillment workflows including batching and QA.
- Hired, trained, and offboarded 100+ employees.
- Acted as technical liaison for internal systems and process improvements.
